

# RU-tv Stories

## **What's one interesting fact about yourself?**

I was a 2015 top ten nominee for Student Employee of the Month, hosted by the Student Employment Office and the Office of Financial Aid.

## **What is your role at RU-tv? What does it entail?**

I am Programming Manager. My job entails: acquiring content for our network (including movies), creating scheduling lists for broadcast distribution for more than 37,000 campus cable users, supervising the Programming Department, organizing each refocused channel with specific content, and much more. I also do RU-info Updates on the side.

## **Why did you choose to come to RU-tv? (Is it related to your major?)**

I chose to come to RU-tv because when I was hired my freshman year, I intended on majoring in Journalism & Media Studies. However, I am still pursuing a career in television entertainment despite my major declaration change. I saw RU-tv as an exceptional opportunity to grow professionally and enjoy coming to work everyday.

## **Why did you choose to come to Rutgers?**

I chose to come to Rutgers because I had played volleyball at a NIKE camp here during my sophomore year of high school, and I immediately fell in love with the people and the campus. I never knew I would end up becoming an admitted student a couple years afterwards, but I am elated that I chose to apply to Rutgers four years ago. It was my first choice.

## **What do you hope to do after you graduate?**

I hope to have a job that I love waking up to everyday after graduation. Anything that pays a decent salary that will help propel me to the career of my dreams.

## **How will your work at RU-tv help you in the future?**

My work at RU-tv will indubitably help me in the future. I have developed confidence and interpersonal skills here that I did not have an opportunity to gain anywhere else. Also, the support I was fortunate to get from professional staff and other student staff members has opened my perspective and passion for learning, in regards to a television network and professional office setting.

## **What is your favorite part about working at RU-tv?**

My favorite part of RU-tv is the other staff members in my department. Although our team may be the smallest of all the departments across RU-tv, I am very lucky to have Tracy and Chisa. They have taught me how to be an effective leader, what it means to be a part of a well-oiled team, and that your co-workers can be some of the most creative, hard-working people that you can also call good friends.

**Lauren Caputo** is a senior majoring Communication
